

SIGNATURE SERIES 400 POND SKIMMER

Aquascape Signature Series Pond Skimmer Filters are designed to eliminate water quality problems. Skimmers remove surface debris before it sinks to the bottom of the pond or reaches the pond pump, which is housed inside the skimmer.

Rounded corners provide maximum strength and durability while allowing the skimmer to withstand freeze/thaw conditions in colder climates. All skimmers are constructed of extremely durable, UV-protected, high-density polyethylene and backed by a lifetime warranty

- Ideal for ponds up to 400 square feet with pump flow up to 4,000 GPH
- Natural-looking faux rock lid helps blend skimmer into surroundings
- Includes two upgraded, water-tight bulkhead ports for plumbing connections
- Large volume, injection-molded rigid debris basket makes cleaning quick and easy
- Reusable, high-density filter mat provides additional filtration by stripping out dirt and smaller debris
- Internal injection-molded rack supports filter mat and protects pump
- Includes overflow kit that automatically maintains pond at proper maximum water level

Available Options:
