

AQUABASIN®

30 AND 45

The AquaScape AquaBasin is a durable and innovative fountain basin designed to accommodate a wide variety of decorative water feature applications, including natural stone, brass, and resin fountains. Its design provides features and benefits that simplify installation, enhance customer experience, and ensure a lifetime of enjoyment.

Made from professional-grade, high-density polyethylene, the AquaBasin is built to last and backed by a lifetime warranty.

- Structural deck cylinders can be drilled to provide endless plumbing and lighting port options, keeping unsightly plumbing and lighting cables out of view
- Large corner pump access panel simplifies pump access, fits larger pumps, and includes a handle for easy removal
- Pump access sits elevated above the deck to prevent gravel and debris from falling into the basin when removing the pump access cover
- Large, flat deck design reinforces basin strength and makes it easy to set and level a wide variety of decorative fountains
- Square shape reduces water loss due to splash off and maximizes water storage capacity
