

SIGNATURE SERIES 200 POND SKIMMER

Aquascape Signature Series Pond Skimmer Filters are designed to eliminate water quality problems. Skimmers remove surface debris before it sinks to the bottom of the pond or reaches the pond pump, which is housed inside the skimmer.

Rounded corners provide maximum strength and durability while allowing the skimmer to withstand freeze/thaw conditions in colder climates. All skimmers are constructed of extremely durable, UV-protected, high-density polyethylene and backed by a lifetime warranty.

- Ideal for smaller ponds up to 200 square feet with pump flow up to 3,000 GPH
- Includes leaf and debris net for ease of maintenance
- Durable lid covers and protects internal components
- Optional brush cartridge provides enhanced filtration

Available Options:

*Signature Series 200
Pond Skimmer*

SIGNATURE SERIES 200 POND SKIMMER

Features and Benefits

- ① Large volume debris net
- ② Rotationally-molded vault provides maximum strength in even the harshest weather conditions and is backed by a limited lifetime warranty
- ③ Large 6-inch opening handles flow rates up to 3,000 GPH
- ④ Corrosion-resistant, non-cross-threading hardware stands up to the elements.
- ⑤ Durable lid provides protection of internal filter components

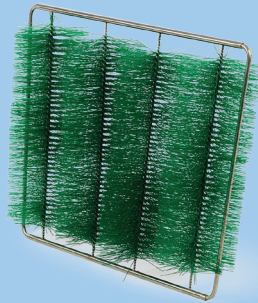

Competitive Benefits

- Backed by a limited lifetime warranty
- Easy to install
- Constructed of extremely durable, UV protected high-density polyethylene
- Corrosion-resistant, non-cross-threading hardware stands up to the elements
- Durable design enables the filter to withstand freeze/thaw conditions
- Included leaf and debris net makes removal of debris quick and easy

Pond Size	Pump Flow Rates	Weir Size	Leaf and Debris Net	Dimensions	Warrenty
Up to 200 ft²	Up to 3,000 GPH	6"	Included	20"L x 17.5"W x 17.5"H	Limited Lifetime

Optional Parts Available:

Brush Cartridge [#99772]

- Inserted behind the debris net to provide a second line of filtration
- Effectively captures smaller sediment and debris as it passes through the filter
- Metal frame secures all four brushes together for easy cleaning

Overflow Kit [#88036]

- Helps maintain proper water level in an overflow situation
- Allows water to drain to a location away from the pond
- Easy to install
