

# COLD WATER BENEFICIAL BACTERIA

Aquascape Cold Water Beneficial Bacteria helps support the nitrogen cycle in pond water colder than 50°F (10°C), providing clean, clear, and healthy water conditions while reducing maintenance. The formulation contains true cold-water bacteria strains. Safe for fish, plants, and animals.

- Reduces ammonia, nitrite, and organic debris
- Ideal for use in water colder than 50°F/10°C
- Maintains a balanced pond ecosystem
